

CASE STUDY - Consulting

Consulting Firm Chooses a Password Protection Program With Hixardt’s Expert Guidance

A consulting firm couldn't decide which password protection program to trust. Hixardt made the choice clear and stayed on for support.

EXECUTIVE SUMMARY

A consulting firm needed to secure credentials but could not decide which password protection program to adopt. Hixardt Technologies advisor Jay Massey explained the options and recommended a fitting program, without pushing the firm to decide before it was ready. Tech support from Joe Hardin kept the firm operating, and the relationship continues on an ongoing basis.

CHALLENGES

- The firm could not decide which password protection program to trust, leaving credentials exposed to risk.
- With limited internal clarity on the available security options, the firm was unable to make a confident choice.
- The firm had no dependable technical support to turn to when systems needed attention.

KEY ACTIONS

- Jay Massey walked the firm through the available password protection program options in clear, practical terms.
- Recommended a specific password protection program and explained why it fit, without pushing an early decision.
- Joe Hardin delivered hands-on tech support to keep the firm operating without disruption.

SOLUTIONS

- A password protection program selected with the firm and put in place with Hixardt's support.
- Ongoing technical support from Joe Hardin, available when the firm's systems needed attention.
- A continuing working relationship with Hixardt across both advisory and support functions.

RESULTS

- The firm selected and moved forward with a password protection program it had been unable to choose on its own.
- Ongoing technical support is now in place, giving the firm a reliable resource when systems need attention.
- The firm described the advisory and support experience as efficient, professional, and helpful.

WHAT CLIENT SAYS

*“Jay Massey is quite helpful in explaining options and making recommendations on password protection programs. Efficient and professional. Joe Hardin - tech support - also super.”*

— Gordon Schatz, Consulting Firm
